LOOKING FOR A GOOD CAREER IN A GROWING SECTOR?

Canada's supply chain sector employs more than 700,000 people in a wide range of roles at all levels in seven functional areas:

- * senior management
- * logistics information systems
- * warehousing
- * transportation
- * inventory/material control
- * purchasing
- * marketing and sales

People are employed in the supply chain sector because of its:

- * interesting, challenging work
- * opportunities for problem-solving
- * prospects for learning and growth
- * diversity
- * average base salaries* that range from \$42,053, for operational occupations, to \$99,243, for senior-management positions

*based on employee survey conducted in 2004/2005

You can build a career in the supply chain. About 86,330 employees will be needed each year over the next few years to fill anticipated new jobs and vacancies.
