## Supply Chain Stakeholder Survey

This survey will provide information needed by the Council to develop strategies that address the real needs of Canadian supply chain practitioners.

In two sections, the survey seeks your feedback on our current projects and activities, and then your input on future initiatives. Is the Council's work helpful to industry? What should we be focusing on?

The survey can be completed online, quickly or not, depending on how much information you want to provide. Your answers will help to direct the Council as we create tools and resources for use by all stakeholders. Click [here](#) to participate.

Thank you for taking time to complete the survey.

Kevin A. Maynard, CAE  
Executive Director
